The Covenant House

Organized By- Aidan Fuchs

About the organization:

- Covenant House began more than 40 years ago when six young runaways were given shelter from a snowstorm, in the lower east side of Manhattan.
- Today there are 30 Covenant House locations across the United States, Canada and Latin Americas – and together we serve more than 51,000 homeless young people each year
- Through the years, Covenant House has grown to be the largest privately funded charity in the Americas providing loving care and vital services to homeless, abandoned, abused, trafficked, and exploited youth.
